

# Dorset

Offering a magnificent central open plan living area with a glorious kitchen and glass sliding doors opening onto the covered alfresco area, the Dorset is one of our most popular designs suiting a wide variety of home owners.

The master bedroom is idyllic comprising a splendid walk through robe to the private ensuite. The spacious bedrooms 2 & 3 with their very generous sizes each have built in robes consisting of shelves and double row of hanging space. Bedroom 4 is the ideal home office or nursery and also has a built in robe.

A separate lounge at the front of the home offers private space for family members or the ideal area for a secluded home theatre.
